

Anti-doping information for competitors

Version 1.0 Published: 30 November 2025

Demo data — placeholder content. Not a real regulation.

Badminton follows the World Anti-Doping Code. This page explains what that means for amateur and junior players at our events.

1. You are responsible

Every player is responsible for any substance found in their body, whatever the level of the event. Check every medicine and supplement against the current Prohibited List before you take it.

2. Medical treatment

If you need a prohibited medicine for a medical condition, ask your doctor about a therapeutic use exemption before the tournament.

3. Testing at events

Testing can take place at any national event. Players under 18 are always accompanied by a parent or a chaperone during a test.
